

## RO 105AUM Reverse Osmosis System

---

### Features:

- 7 stages filtration
  - Sediment Filter
  - Granular Activated Carbon (GAC) filter
  - Coconut Shell Carbon Block filter
  - 75 GPD membrane (CSM/Filmtec)
  - Post Carbon Taste and Odor filter
  - Mineral filter
  - Ultraviolet (UV) Lamp
- Microcomputer controller with quality meter , no water protection and filter change alarm
- 185 Liters daily production of clean water
- Automatic Flush Valve to prevent blocking of membrane
- Automatic shut-off electro valve
- Booster pump for less waste of water
- Computer controlled water quality meter
- 24V for safe under sink installation
- Re-mineralization of water
- UV lamp to kill pathogens and micro-organisms in water

Dimension: L 37 cm x W 20 cm x H 53 cm
